Le Méridien Hotelbar, Robert-Stolz-Platz 1, 1010 Wien  
Sunday Sounds, music live @ 5,

#### Introducing **LUKE ANDREWS**

Luke grew up in a small village in Eastern Austria from where he joined his former bands and projects. Despite the shows at concerts and festivals that followed the charts success with his former Funk-Pop band, Luke (guitar, drums, Singer & Songwriter) launched his solo project in 2015. Taking the leap of faith at the beginning of 2016, he moved to London with his long-time friend, bass player TOM TRRAINT. Luke's hard work paid off. He recorded with one of the best-known producers in Europe STEVEN A. WILLIAMS, who worked with Sting, Eric Clapton, Britney Spears and many more.

After spending a year in London, Luke's team grows with one of Austria's biggest management companies - The "STAR FACTORY". Featuring ROBBIE MCINTOSH (Paul McCartney, John Mayer,...) on guitars, DAVID CLAYTON (Simply Red, Annie Lennox,...) on keys and the Austrian music legend Willi Resetarits - "OSTBAHN KURTI" – on the blues harp, he recorded his first full-length album "**LEAVE A TRACE**", which will be released in early 2018.

Luke writes music that provides the feel-good atmosphere after work or on a Sunday afternoon. The easy listening rhythms and the catchy melodies are meant to carry the listener away from everyday life. Luke's sentimental yet authentic lyrics, sung with his expressive voice, are telling stories taken from his past and present.

#### **COMING HOME - 1st single of his upcoming album „LEAVE A TRACE"**

With COMING HOME, the first single of the album „Leave A Trace“, the Austrian new comer LUKE ANDREWS melodizes the wonderful feeling of coming home. In his small flat in London, he writes about security and trust. A song, that makes you daydream and have a good time.
